📍 Belqas, Ad Daqahliyah, Egypt

Summary

Software Engineer specializing in building scalable, production-ready web and mobile applications using React, Next.js, React Native, and Node.js. Experienced in developing high-performance, API-driven systems with a focus on clean architecture, performance optimization, and user experience.

Experience

Frontend Developer Trainee

Feb 2026 – May 2026

Madkhool Capital

Hybrid

- Contributed to building fintech web and mobile applications using React, React Native, and TypeScript within a scalable frontend architecture.
- Developed and enhanced responsive UI components across two core React-based platforms with a focus on performance and reusability.
- Built and maintained mobile features using React Native while following clean code and reusable component practices.
- Integrated REST APIs, resolved production issues using Sentry, and supported debugging and performance improvements.
- Collaborated in code reviews and agile workflows following modern frontend engineering best practices.

Frontend Developer

Sep 2023 – Dec 2024

Sustainable Waste Management — Graduation Project

Egypt

- Built a full web platform including a public website and an admin dashboard for waste management operations.
- Developed reusable and responsive UI components using React and modern frontend architecture principles.
- Worked in an agile team environment across planning, development, and iterative delivery cycles.
- Managed application state and integrated dynamic data to improve overall user experience.

Projects

E-Commerce Web App (TypeScript) | *React, TypeScript, Redux Toolkit*

Jan 2026 – Feb 2026

- Built a fully responsive e-commerce application with product listing, cart system, and scalable frontend architecture.
- Implemented global state management using Redux Toolkit to ensure predictable application behavior.
- Live Demo** — **GitHub Repository**

Airbnb Clone Web App | *Next.js, Tailwind CSS, OpenWeatherMap API*

Mar 2024 – Apr 2024

- Built a modern Airbnb-inspired web application using Next.js with server-side rendering for improved SEO and performance.
- Implemented dynamic routing and reusable UI components using Next.js App Router and Tailwind CSS.
- Live Demo** — **GitHub Repository**

MERN Stack Twitter Clone | *MongoDB, Express.js, React, Node.js*

Sep 2025 – Oct 2025

- Built a full-stack social media application with authentication, posts, likes, comments, and follow system.
- Developed RESTful APIs using Node.js and Express.js with JWT-based authentication.
- GitHub Repository**

E-Commerce Web App (JavaScript) | *React, JavaScript, Zustand*

Nov 2025 – Dec 2025

- Developed a fully responsive e-commerce platform with dynamic product listing, cart system, and search functionality.
- Implemented lightweight state management using Zustand to improve performance and simplify logic.
- Live Demo** — **GitHub Repository**

Skills

Languages: JavaScript, TypeScript

Frontend: React, Next.js, React Native, HTML5, CSS3, Tailwind CSS

State Management: Redux Toolkit, Zustand

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, Vercel, Android Studio, Docker

Honors & Awards

2nd Place — Egyptian Startup Olympics (Student Path) <i>Innovation Support Fund (ISF)</i> - Awarded 2nd place nationwide for Ecomate startup. - Received 25,000 EGP funding based on innovation and market potential.	Jul 2024 <i>Egypt</i>
Venture Progress Pitch Winner <i>USAID Scholars Program</i> - Won competitive startup pitch competition for Ecomate. - Received 25,000 EGP seed funding grant.	May 2024 <i>AUC, Egypt</i>

Education

Mansoura University <i>B.Sc. Computer and Information Science — Software Engineering</i> - Focused on software engineering, web development, and scalable systems. - Led graduation project Ecomate, which received national recognition and funding.	Sep 2020 – Jul 2024 <i>GPA: 3.22 / 4.0</i>
---	--

Certifications

Full Stack Development Certification <i>Consulting of Computer and Information Center</i> Completed a full stack development program covering frontend and backend fundamentals for building web applications.	Sep 2023 – Nov 2024
Frontend Development Certification <i>Consulting of Computer and Information Center</i> Completed a frontend development program focused on HTML, CSS, JavaScript, and responsive web design principles.	Sep 2022 – Oct 2022
